

NEWSLETTER ~ February 2001

Dear Artisans,

We thought you would like an update on how the site is progressing and on its future development.

Membership has steadily increased from the middle of December, and, at the time of writing, 31 people have registered. As an incentive we have been offering new members two years on the site for £25.00. However, as from February 2001, this will cover one year only.

As you can see from the enclosed index, a wide range of activities are covered. We now have a substantial site, which we consider can be recommended with confidence, and we would be pleased to hear of anybody who you think might be interested. As the numbers grow, in addition to the index, we intend to categorise the various trades, crafts and skills on the site.

We feel that it is important for the future development of the site that the web site address [www.lewesartisans.com](http://www.lewesartisans.com) be well publicised. To date three adverts have appeared in the Sussex Express together with a news article and editorial comment, and two in the Lewes News. We intend to put cards in advertising boards in Newsagents etc. We are also investigating the cost of professionally printed window / car stickers, and an all purpose leaflet for publicity.

Please could you make good use of the stickers and leaflets, which we will send to you when available, and consider using the logo in your own stationary where circumstances permit. If you have any thoughts regarding future publicity methods, or any other comments regarding Lewes Artisans, please let us know.

Enclosed is a copy of your page as it appears on the site, and a statement of your membership.

Best wishes,

John and Simon

## LATE NEWS

We have been approached by the Lewes Flood Recovery Group to discuss the possibility of our site being used as a directory to which bona-fide flood victims, seeking to employ local trades and skilled people may refer.

Please let us know if you wish to be included on such a list. The matter of a small discretionary discount was discussed, but we explained that this was a matter for individuals to decide. We feel that this would be good publicity for the Artisans.

## DONT FORGET

Please let Simon know if you wish a temporary alteration to be made to your page. Perhaps to publicise a sale, special offer or similar? Or: if you do not wish to be contacted for while due to a full order book!

Also, we would like to see more images on the site generally. If you have a picture that is relevant to your page, then we are happy to put it in for you. Remember, having an image on your page is included in the price. If you wish to discuss it with us, please do not hesitate.

## DONT SEARCH ~ USE THE ADDRESS !

A few people have been having difficulty logging on to our web site. If you are one of those people, the following brief explanation may be of help.

Simply use the address bar on your browser. That is, the uppermost long white box just below the words "File.. Edit.. View" etc.

Type in "[www.lewesartisans.com](http://www.lewesartisans.com)" and either press "go" to the right of it or hit the return key on the keyboard. (Alternatively press "FILE", then "OPEN" type in the address and hit "return" or "enter")

As you know the address (or "url") of Lewes Artisans namely: [www.lewesartisans.com](http://www.lewesartisans.com), then you do not need to use any kind of search engine to find the site. It may be that a search engine (like YAHOO) is set up as your home page. In which case, do not type in "www.lewesartisans.com" into the search box. It probably will not find our site.

A word about searching on the internet:

As Lewes Artisans is a relatively new site, so some of the search engines have not found it yet. Some, like Yahoo or Lycos, may take up to a year before they do. You can find Lewes Artisans by searching on the words "Lewes Artisans" (not the address!) using [www.google.com](http://www.google.com) and [www.alltheweb.com](http://www.alltheweb.com) amongst a few others.

These search engines are far better and quicker at finding things than most, and would I suggest you use them anyway.

If you are still having problems, Simon may be able to help.
